    name: 'Technical Evangelist',  
    since: 1996  
  },  
  location: 'France, EU',  
  remote: 'Full Remote worker since 2015'  
};
```

PROFILE

I've been a Tech Evangelist at [alwaysdata](#), a Cloud Services Provider, since 2018. I lead the DevRel program where I excel at teaching complex concepts by processing them into easy-to-understand talks, articles, or videos. I was formerly a Web Developer well versed in frontend stuff for 10 years, I'm passionate about Web Apps and the Web Platform, APIs, Security, and Webperf.

SKILLS

Evangelism

Technical popularizer, I condense and extract the essence of dry tech concepts to deliver them to all-level people. I like to play with new formats and an unusual tone to empower my audience. I distill my experience through conferences as an international speaker.

Community manager

Technical facilitator in day-to-day exchanges with other communities, I bring help by providing support in the use of our solution. I foster relationships by supporting tech community events and acting as a referent in mentorship programs.

Development

Deep knowledge of the Web Platform. Experienced with *JavaScript* as well as backend or System languages (*Python*, *Ruby*, *Rust*). I'm used to new frontend technologies, including **WebAssembly**, to build and deploy empowering interfaces.

DevOps

I'm comfortable with various toolchains, from frontend requirements to backend integrations with high knowledge of Unix systems, and comfortable with OS X, Linux, BSD...Involved in processes and quality.

EVANGELISM

Speaker

INTERNATIONAL CONFERENCES

Worldwide

since 2012

- Technical speaker in conferences, I cover topics like Security, Cloud architectures, Frontend Best Practices and new technologies, or Automation.
- Technical facilitator, I craft contents for articles and videos to popularize complex concepts.

Tech Evangelist

ALWAYS DATA

France, EU

since Jan. 2018

- DevRel Program leader, I write tech talks and articles to bring to our community members insights on emerging Web technologies. I'm in charge of community and press relationships.

Mentoring and Tech Support

COZY CLOUD

Paris, FR

2015 - 2017

- In charge of technical support and mentorship program for teammates and community on frontend contributions. I built and managed hiring processes and conducting interviews.

Teacher

CESI - IT HIGH SCHOOL

Rouen, FR

2009 - 2012

- Teaching Web technologies, network and servers architectures, and Unix/Linux platforms.

DEVELOPMENT

Frontend Senior Developer

COZY CLOUD

Paris, FR

2015 - 2017

- Frontend developer working on main core apps. I built UI framework foundations to facilitate Cozy apps development.

Fullstack Dev

BUNKR

Rouen, FR

2014

- Frontend developer for *Bunkrapp*, an online presentation authoring tool. On server-side, API development (Python/Flask/Celery) monitored with **Datadog**.

Web Developer, Internal tools

CLEVER AGE

Paris, FR

2012 - 2014

- Frontend Developer and Backend consultant, specialized on luxury projects with strong needs in reliability and performances.
- Responsible for internal tools development and architecture

Freelancer

Paris - Rouen, FR

2008 - 2012

- CEO and Lead Developer of a small Web Agency, specialized in frontend development and JavaScript solutions.

TALKS, ARTICLES & OPEN SOURCE

I love to share my knowledge in many ways, especially in conferences. My talks (slides and videos) are available [online](#). I also write tech articles on several platforms: [alwaysdata's blog](#), [OpenWeb group](#), [Clever Age blog](#).

I collaborate on various OSS projects, like Brunch.io, Oh-My-ZSH, BrowserSync and others.
